CLEVELAND, OHIO

Summer 2002 Program Guide

# A Note From Our General Manager\*\*\*

Greetings music lovers,

Here's the brand spankin' new WRUW Summer Program Guide. As you can see, we have once again exceeded our goal of bringing music to the Cleveland radio waves that cannot be heard anywhere else on the dial. With 90 programmers on the air this summer, covering many shows that have been around for over a decade, in addition to a variety of new ones and returning favorites, there's sure to be music to please every taste. Hopefully you'll continue tuning in for your favorite shows, and begin to explore other shows that you haven't heard before.

On March 5, WRUW began broadcasting at a full 15,000 watts. As a result, we're reaching new listeners in faraway lands! Knowing that, we feel certain that the 15 years of work and fundraising was well worth the efforts of everyone involved. We can thank you, our listeners, for helping us reach these goals and hope you will continue to support WRUW during our upcoming telethon, June 10-16. There are a few large jobs that still need to be completed to finish the power increase project, so please support your favorite station in Cleveland, FM 91.1.

In addition to being a time of celebration, these past few months have also put radio stations around the nation on edge in regards to webcasting. According to the 1998 Digital Millennium Copyright Act, record companies and artists shall receive a fee for songs that are broadcast via digital media, such as the internet. For stations with small budgets and minimal income, such as WRUW, this law threatens our future webcasting capabilities. Rest assured that we continue to fight to keep our streaming audio feed and archives alive, and hope you will support us in these efforts. If you are interested in helping to fight the DMCA, and keeping our webcasting costs to a minimum, visit our website at [www.wruw.org](http://www.wruw.org) for more details.

We had a great time once again this year broadcasting the annual Hessler Street Fair, although the weather was less than optimal. We look forward to seeing all of you outside our studio later this summer at the annual Studio-A-Rama. It promises to be a day of great musical entertainment of many varieties. As always, we love hearing from you; if you have any suggestions or issues, please contact us. And don't forget to call in your requests at 216-368-2208. Long live non-commercial radio!

Sincerely,

*melissa rae giglio*
